

# ROOTS: Overport - Durban (Overport Rising Sun) 2019

## Some detail

### What is Roots?

A **landscape survey** which spans **110 metropolitan communities** across South Africa with a total sample of **27 468**. Each community is sampled independently

**Formal households** are selected using multi-stage cluster sampling and purchase decision makers (**shoppers**) are **randomly selected** from the household for interview.

### In this document

A community is a **defined geographical footprint** from which the samples are drawn. The map provided defines these boundaries.

### Reading the charts

The **community** is identified in the **top right corner** of the page

The **sample** size, universe size and **description** are displayed at the **bottom** of the page (e.g. (n) 300, representing 40,000 households or 60,000 shoppers)

**Community data is compared to the composite of similar communities**  
see below for details

The **community's** information is always shown in **colour** and the comparative **Metro** data **in grey**

Where applicable community data is **trended back 10** years or as far as comparable
